Comments or questions (8,192 characters max):

I do not want Philips 66 oil trains coming through Templeton. I live approximately one mile from the railroad track and a derailment would certainly affect me and my family. The railroad tank cars currently in use have been found to rupture easily and the companies that make them are fighting tooth and nail the Federal Government's attempts to force them to make these cars more robust. This is just one among many reasons why I am totally against the Phillips 66 proposal. Thank you.
